

SB Components based in Wisbech is looking for an Estimator to join our busy and vibrant Sales team.

The Estimator uses industry experience and knowledge to provide detailed estimates for customer specifications and larger bespoke projects this will also include the writing of detailed quotations. They will also carry out reverse costings and evaluate if the project was done under both the hours and material costs.

The estimator will work closely with the sales person both before, during and after the order has been completed, be involved in internal meetings and be responsible for keeping the costings analysis spreadsheet up to date.

Experience, knowledge & skills

Essential

- Previous customer service experience
- Fluent in MS Office & Excel
- Ability to react quickly and positively to issues and challenges
- Experience of problem solving in a fast paced environment
- Excellent communication skills, both written and verbal

Anyone interested should email their CV to hr@sb-components.com quoting Estimator in the subject line. The closing date for submitting applications is 18th June 2021.
